FEATURES
NEEDLE
DECOMPRESSION
AT THE 5TH
INTERCOSTAL
SPACE

Our Chest Drain and Needle Decompression Trainer has been designed to meet the specific requirements of healthcare professionals training in surgical or guidewire-assisted thoracostomy and thoracentesis.

This product allows for a variety of chest drain insertion techniques to be performed including ultrasound-guided techniques.

Ideal for ATLS courses.

- 1 *Blunt dissection*
- 2 *Chest tube insertion*
- 3 *Seldinger technique*
- 4 *Internal anatomy visible under ultrasound*
- 5 *Realistic needle decompression*

AIRSIM COMBO X

TCCTC91100X

TCCTC91100XDS

Combines the uniquely constructed AirSim® airway with the enhanced addition of tracheal rings, simulated cricoid and laryngeal cartilages.

AIRSIM CHILD COMBO X

TCCC10006X

TCCC10006XDS

Ideal for practising oral and nasal intubation training techniques, percutaneous tracheostomy and emergency cricothyroidotomy on a 6 year old child.

TRUCRIC

TCTCRIC1

TCTCRIC1DS

The TruCríc is ideal for practising emergency needle and surgical cricothyroidotomy techniques. The model also facilitates percutaneous tracheostomy procedures.

Anatomically accurate features including; tracheal rings, simulated cricoid, cricothyroid membrane and laryngeal cartilages helps provide realistic training in front of neck access techniques.

ATLS

10th Edition Range

The 10th edition of the renowned **Advanced Trauma Life Support (ATLS)** course from the **American College of Surgeons (ACS)** is available.

We're proud to provide a cost-effective solution to the simulation equipment needed for the ATLS 10th edition. Our aim is to make it easy for training providers to deliver this course. With full user manuals and support available, our ATLS suitable products are now available to purchase.

The ATLS is taught worldwide and gives medics a systematic approach on how to care for trauma patients. The course has now been taught to over 1 million doctors in over 50 countries and it continues to evolve including the 10th edition featuring hybrid learning.

Designed for doctors who treat trauma patients both frequently and infrequently, the ATLS course is a measurable standard and provides a comprehensive system for the treatment of trauma patients.
